

MERIDIAN GROUP

CORPORATE SOCIAL RESPONSIBILITY

AquaForward

A Clean Water Access Initiative for Underserved Communities

PROPOSAL PREPARED FOR

Regional Community Development Board

DATE

March 2026

Executive Summary

Across the districts served by the Regional Community Development Board, an estimated 42,000 residents rely on water sources that do not meet basic safety standards. AquaForward is a 12-month initiative, led by Meridian Group in partnership with local health authorities, to install and maintain community water filtration points, train local stewards, and build lasting awareness around water safety practices.

42,000+

Residents reached

18

Communities served

12 mo.

Programme duration

Programme Objectives

Safe Water Access

Install 18 community filtration points across underserved districts.

Local Capacity Building

Train 60 community stewards in filtration upkeep and water testing.

Health Partnership

Coordinate with regional health authorities on monitoring and reporting.

Why Meridian Group

Meridian Group has supported community infrastructure and public-health partnerships across the region for over a decade. AquaForward is led by a dedicated programme team with direct experience in water access initiatives, supported by a governance structure built for transparency and accountability throughout the engagement.

Track Record

Regional CSR programmes delivered since 2016

Dedicated programme & field staff

Programmes completed within approved budget

Governance & Accountability

Single Point of Accountability

A dedicated Programme Director reports directly to the Development Board monthly.

Independent Quality Checks

Third-party water testing at each installation site before sign-off, not self-certified.

Transparent Fund Use

Quarterly financial reporting against approved budget, shared with all stakeholders.

Risk Mitigation

Phased rollout means later-phase funding is contingent on earlier-phase milestones being met, limiting exposure if site conditions require adjustment. A 5% contingency is built into the budget for unforeseen site-specific costs.

Approach & Projected Impact

Implementation Phases

Projected Reach by Quarter

Why This Approach

- ✓ Phased rollout limits disruption and allows budget flexibility between quarters.
- ✓ Local steward training builds long-term maintenance capacity beyond programme end.
- ✓ Quarterly reporting keeps the Development Board informed at every milestone.

Investment Breakdown & Terms

Phase-wise Cost Breakdown

Phase	Description	Investment (₹)
1. Assessment	Site surveys, water testing, community entry	4,20,000
2. Installation	Filtration units, construction, supply chain	21,80,000
3. Training	Steward onboarding, workshops, materials	5,60,000
4. Monitoring	Water testing, quarterly reporting (12 mo.)	4,90,000
Contingency (5%)	Unforeseen site-specific costs	1,90,000
Total		38,50,000

Payment Terms

- ✓ 30% on programme approval and kickoff (Phase 1)
- ✓ 40% on completion of Phase 2 installations, verified by independent testing
- ✓ 20% on completion of Phase 3 training
- ✓ 10% on final programme review and impact report (Phase 4)

Assumptions & Validity

Pricing assumes site access is granted within 30 days of approval and reflects current material and labour costs. This proposal is valid for 60 days from the date on the cover page. Any scope changes requested after kickoff will be quoted separately.

Timeline & Next Steps

- Apr 2026**
Programme kickoff & site assessments begin
- Jul 2026**
First 9 filtration points installed and operational
- Nov 2026**
Remaining 9 sites complete; steward training concludes
- Mar 2027**
Full programme review and impact report delivered

Total Investment: ₹38,50,000

Phased across all 4 implementation phases, with a detailed cost breakdown and payment terms outlined on the preceding page.
